Full Job Description

Pinnacle Design/Build is looking to add an awesome new team member within our Ranks. This open position is for an Equipment Mechanic wanting to jump start their career with a great company that is growing. We're looking for a hardworking Mechanic who enjoys challenges and surpassing customer expectations. The ideal candidate will have a background in construction and Equipment Maintenance and Service. Some projects might require short-term traveling, such as one to two weeks, but we pay all travel expenses, including lodging and meals. We're looking for a long-term candidate who is looking for a secure and rewarding form of employment.

The Mechanic position job responsibilities will include but are not limited to the following:

- Being familiar with Job Site Safety Standards
- Being experienced in diagnosis and repair of both gas and diesel engines
- Being able to perform assigned preventative maintenance services to all company assets
- Being able to diagnose and repair electrical, hydraulic, suspension, brake and air systems on company assets
- Being able to complete required paperwork and utilize fleet maintenance software
- Being able to coordinate road service and towing after work hours
- Being able to repair machinery and other components by welding (if needed)
- Being able to communicate with the team and maintain a "Proactive" approach to equipment maintenance
- Being able to maintain equipment in a condition that does not compromise safety
